

Pelham Energy Committee Meeting
October 2, 2018

Minutes:

Present: Stan Swiercz (chair), Tony Rogers, John Larsen

Note taker: John Larsen

Convened 8:10 pm

1. Follow up on School Committee conversation:

- First thing to do is learn more about the school building.
 - What do we already know?
 - What level of an energy audit? What should be in scope?
 - School Comm. Outreach to MassSave contact.
- Draft outreach language to Lisa Desjarlais
 - Think about best way to structure initial outreach to identify contributors
 - John to draft language for consideration at the next energy comm. meeting

2. Review of RW Hall report:

- Committee agrees that estimates of total system cost for both options with and without rebates and subsidies needs to be included in the report. Tony will request that they do so.
- Members noted the substantial amount of oil included in the ground source option. The report needs to include system costs for geothermal sized for cooling load without oil and geothermal sized for heating load.
- Please share assessment for three zones downstairs
- What does incremental costs means for Mass Save benefits?
- We want to know what type of rebate we should expect to receive not the max?
- How much will it cost to design the air source system?
- Need copy edit of report.

Next meeting Oct. 9

Adjourn: 8:50 pm
